1992900.00

Special Additional Dominion

BROTHER SAM'S DAUGHTER.

"Twelve o'clock, and the washing ain't out yet," said Nancy Norton, with a frightened glance at the clock. "But I've had such a sight of setbacks! I'll have to wait a spell now till the hired men have had their dinner."

She blew the horn at the back door, then made a hasty meal, and the plentiful, if plain, meal on the table, which fact she had barely accomplished before Uncle Peter and three stalwart helpers appeared on the scene.

"Nancy does make a number one past!" said Hiriam Jenifer, reaching for a second slice.

"I don't mind it I drink another cup of coffee," observed Noah Johnson, "with plenty of sugar, Nancy, please."

While Hezekiah Hopper made a plunge at the butter with his own knife, remarking, sotto voce, "That to his taste there wasn't no butter like June butter, an' it didn't come but once a year!"

"No bread," said Uncle Peter with a comprehensive glance around the board, "nor rice bisque—eh, Nancy?"

"I couldn't manage it to-day," with a weary, strained look.

"Now yesterday's bread's good enough for me!" observed Hiriam philosophically.

"For my part," said Uncle Peter, "I don't see how these women folks contrive to put in the time, pottering around all day, a-doin' next to nothing!"

"Oh, now, that ain't fair!" spoke up Noah Johnson, good naturally. "Tain't no joke to cook an' wash an' iron for four men."

The color had risen in two round spots to Nancy's cheeks: a quick retort hovered on her lips, when Uncle Peter interrupted the unspoken words.

"Oh, by the way," said he, "I'd most forgotten to say anything about it, but brother Sam's girls are here to-day."

"Brother Sam's girls?"

"Why, yes, your cousin, Nannie, from Bridgeport—your Uncle Sam's gal, that's to say, the district school-her. Sam, he was inquirin' round for a place, an' I calculated we could board her here, so I told him to send her on. He's willin' to pay five dollars a week, and that counts up."

Nancy looked at her uncle with startled eyes.

"But there ain't no room for her to sleep in," said she.

"She can have your room, and you can take the little corner chamber in the garret. One person more or less in the family don't make much difference and five dollars is five dollars. Have some more of the dried peach sars, John?"

Nancy said not a word.

What was it to remind Uncle Peter that the little garret chamber was cold in winter and hot in summer, that the roof leaked, and the rats played high carnival there?

She only helped Hiriam Jenifer to a cumber pickle, and replenished the coffee pot for the third time.

"There's a gal, now—Brother Sam's daughter," reflectively observed Mr. Norton, as he sprinkled pepper and vinegar over his summer beans—"as is worth her salt. Ain't Nancy could make money like that? But Nancy didn't never no fac'ty!"

"There's a gal, now—Brother Sam's daughter," reflectively observed Mr. Norton, as he sprinkled pepper and vinegar over his summer beans—"as is worth her salt. Ain't Nancy could make money like that? But Nancy didn't never no fac'ty!"

"I never had a chance!" cried Nancy, with rising color and tear-brimmed eyes. "I've been kept at work since I was a child, and—"

"There, there, don't get excited!" said Uncle Peter, waving his hand in a patting manner. "Gal is queer creature. You can't much as much as touch her. I'll make her—she's a child."

"Well, you can try," said brother Sam.

"I'll make her—she's a child."

"I'll make her—she's a child."

"Yes," said he, "she's a smart gal. The best gal I ever had. Thoroughgoing New Englander. I pray you may be able to get her—though I doubt if she'll come to you for fifteen dollars a month."

"I'll make it eighteen," gasped Uncle Peter, "since you say she's a New Englander."

"Well, you can try," said brother Sam.

"I'll make her—she's a child."

"I'll make her—

NOT WISELY, BUT TOO WELL

CHAPTER XX.

"AFTER LONG YEARS."

The old place is just the same, isn't it? says the tall bearded man to another, as they stand at the window of the Naval and Military Club, and look out at the quiet streets in the grey November dusk.

The man addressed turns his keen dark eyes on his companion's face. "The same eyes, I suppose, it is. It's only people who change, you know. Places and things haven't their excuse."

"Well, changed or not, I'm glad to be back again," says Major Trenterman of the Trent. "He and his friend, Colonel Carlisle, have just returned from Burslem, and are enjoying the comforts of club-life, the reunion with old friends, the hundred-and-some things that, familiar enough once, have become of double value since sacrificed for the exigencies of foreign service, and lost through years of hard work and fierce warfare, and the myriad discomforts of climate and life abroad.

"London is the best place in the world to begin life in," continues Trenterman. "I've been looking up old friends to-day. Some 'wommes.' Didn't expect to find so many in town. But the country's deadly just now; even the hunting's spoilt by the weather."

"Good friends," echoes his companion, somewhat drearily. "I wonder if I've got any left. I feel like a Maccabiah come back, it seems a lifetime since I went abroad."

He passes his hand over his short-cut iron-grey hair, and half sighs. He is a splendid-looking man. Tall, erect, powerful, with keen dark eyes and a heavy drooping moustache, dark still in contrast to his hair—a man who carries his forty-five years by far enough, despite hard service and long climate.

He eyes gaze out on the darkening streets where the lamps are shining, and his thoughts go back to some thirteen years past, a time of fierce joy and fiercer sorrow.

"I wonder where she is now?" he thinks to himself. "I know I have, of course, long since. I wonder I have not forgotten the thirteen years of such a life as mine—such a break in memories and all round—since that time."

He looks a little bittterly and impatiently, and then turns his eyes on a companion with his friend, who has passed into an armchair to sit down and go to the theatre together afterwards.

"I have promised to look in at Vane's rooms," says Major Trenterman. "You'll come, won't you? I'm full of some new craze—estheticism, he calls it. All his people have gone in for it extensively, and seems to be bitten with the same mania. You really should see his rooms. Quite a study."

"Um, yes; I'll come," answers Carlisle, indifferently. "He is rarely anything else but indifferent now. Nothing comes or interests him, except, perhaps, 'big game' or wild fighting."

They go to the Gailey. To Carlisle the performance seems idiotic in the extreme. He has given up to representing "big game," or to calling in the leadership of bad girls and coarse jokes "vit."

"Do come away, I can't stand this trash," he mutters, impatiently.

"But that's Belle Berton, singing," remonstrates Trenterman, who is more "up" to the goings-on of London as it is, than his friend.

"What of that?" demands Carlisle.

"Everyone's talking of her. She's—" (Then comes a mysterious whisper.) Colonel Carlisle frowns and tugs his heavy moustache.

"She's idealised as 'celebrity.' Umph! This is a modern definition! Suppose I'm not destined enough to look up to as a 'woman'—you can't really care for such rubbish. I think it's a kind of common sense, I think. And look at that—such vast diets—grazing from ear to ear, with the blase faces of men, and limbs like thread-paper. Fine stuff for soldiers there!"

"That's a detachment of the Crutch and Toots' pack Brigade," laughs Trenterman; "also a new importation of society since we bade farewell to Alison's shores. British youth don't seem to have much backbone, eh?"

They laugh and rise and go out, to the intense disgust of a bevy of fair ones, who have been directing farthing glances at the two magnificently-looking men in the stalls, and drawing comparisons between them and the "Hobgoblins" in no way complimentary to the latter.

"Once free of the theatre, they'll have a lasson and are driven to the rooms of Valentine Vane, an old comrade of their own who has retired from the service, and is cultivating artistic tastes with praiseworthy assiduity.

But Valentine Vane, or V.V., as his friends call him, is in a state of pleasant exertion. He has been invited to a reception at the house of one of the most famous leaders of the new school, and he insists upon carrying the two officers off with him despite their remonstrances.

"She made me bring any friend I pleased," he says enthusiastically. "Ah, when you see her! Such grace, such languor, such divine innocence! Every attitude a pose, every look a revelation of subtle meaning."

Again he finds himself watching that fair, pale face, that exquisite figure, which is a living embodiment of grace that may well draw all women to gape with envy.

"How calm she is! How passionless, how changed! Men speak of her beauty, the beauty that lends itself so perfectly to this fantastic fashion of which all her guests seem devotees, and the words tinge her lips to fire. Yet, after all, why should he mind? She is nothing to him—nothing."

He is beside her again. She does not appear to notice his presence, but she is well enough aware of it. It lends warmth and colour and animation to her face, it lights her great grey eyes, and brings smiles to her lips. His heart grows bitter within him. She must have long ago grown callous and forgetful. Does he really forget how passionately she loved him—him?

"I suppose no one is that," she says, with a suspicious tremor in her voice. "Something, or someone, is sure to spoil our lives for us."

He draws back. The shaft has hit home. He remembers only too well who has spoilt the life of this woman beside him.

(TO BE CONTINUED.)

Hawks, Owls and Farmers.

The Department of Agriculture at Washington has recently published a work prepared by Dr. A. K. Fisher, assistant ornithologist of the department, under the title, "The Hawks and Owls of the United States in Their Relation to Agriculture."

It is the general belief of scientific men that such birds—birds of prey, as they are called—on the whole, of great service to farmers; but the belief is directly opposed to which has commonly been held by farmers themselves.

The ornithologists of the department have therefore undertaken to ascertain who is right, the farmer or the man of science. To this end, they have made a tour of the country, and have examined the nests of the various hawks and owls, and have been critically examined. The result may be summarized in a few words.

Of the seventy-three kinds of hawks and owls found within the United States, only six are, on the whole, injurious, to the detriment of man and his property, and these are never so much as to be a serious pest.

The red-shouldered hawk, for instance, is the commonest large hawk in many parts of the country, and is commonly known as the red-tailed hawk also as the "hun-hawk." Of this hawk two hundred and twenty stomachs were examined; and of the food found in them, less than two percent was poultry. The remainder consisted of mice, grasshoppers, and a great variety of other things. More than sixty-five percent of the whole was made up of non-mammals—mice and shrews especially.

Concerning Swainson's hawk, we are told that it is particularly fond of grasshoppers. One bird has been noted to eat as many as two thousand and grasshoppers in a day. In the course of a month a flock of about one hundred and sixty-five, "which is a small estimate of the number actually seen together in various localities, feeding upon grasshoppers," would destroy a million of these pests.

Fauna like these should be taken into account by law-makers; but it is not many years since the legislature of at least one of the Western States—Colorado—passed a bounty act, intended to encourage the killing of hawks. Swainson's hawk, included, and as a result thousands of grasshoppers were actually killed.

Concerning Swainson's hawk, we are told that it is particularly fond of grasshoppers. One bird has been noted to eat as many as two thousand and grasshoppers in a day. In the course of a month a flock of about one hundred and sixty-five, "which is a small estimate of the number actually seen together in various localities, feeding upon grasshoppers," would destroy a million of these pests.

Concerning Swainson's hawk, we are told that it is particularly fond of grasshoppers. One bird has been noted to eat as many as two thousand and grasshoppers in a day. In the course of a month a flock of about one hundred and sixty-five, "which is a small estimate of the number actually seen together in various localities, feeding upon grasshoppers," would destroy a million of these pests.

Town & Country Cullings.

—Mr. and Mrs. Grimmett, of Indian Head, are spending a few days in town.

—The Presbytery of Regina will meet at Broadview on Wednesday, September 13th, at 3 p.m.

—Mr. J. Creamer, V.S., who has been spending a short time in Regina, returned on Monday.

—Geo. S. Davidson, junr., arrived from Elkhorn on Monday, and is spending a few days at home.

—Dr. Bell was a passenger on the west-bound train on Monday. He went to Regina, and returned on Tuesday morning.

—Mr. Benjamin Tanner has had the misfortune to get one of his hands poisoned, and for two or three weeks has suffered intense pain.

—We would call the attention of our readers to the auction sale of thoroughbred pedigree Clydesdale horses, advertised in another column, which takes place at Brandon on the 27th inst.

—Notwithstanding the fact that our sidewalks have received some attention in the way of repairs, there are still a few places which are dangerous to those who perambulate after sundown. It would be good policy to have the planks fixed before an accident occurs.

—The following are the dates fixed for the exhibitions of our local Agricultural Societies:—South Qu'Appelle, October 5th; Fort Qu'Appelle, September 29th; Indian Head, October 4th; Wolesey, October 5th; Grenfell, September 21st; Broadview, September 28th; Whitewood, October 12th; Pheasant Forks, September 28th.

—Mr. D. S. McCannel met with a slight accident on Saturday last. He was hauling a barrel of water on a buckboard, when the horse took fright at a dog and swerved. One wheel of the buckboard got into the ditch, the barrel overturned and broke the wheel, and Mr. McCannel was thrown out. He received a cut above the right eye, but was otherwise uninjured. His little daughter, who was also in the rig, was no worse for the adventure.

—The shooting season opened in this locality with good sport on the whole. Long before daybreak the most enthusiastic sports were out, in readiness for the first sight of game. Those who took time by the forelock in this way seemed to face the best, and we heard of some good bags being made. Some who delayed operations in the morning had to content themselves with fewer birds, but came home well satisfied with the sport provided. Both ducks and chickens are plentiful and in good condition.

—On Thursday morning a prairie fire commenced near the C.P.R. track east of the town just after the express had passed. There was a strong breeze blowing, which spread the fire rapidly, and it soon assumed alarming proportions. Sgt. Fyffe called on the townspeople for assistance to extinguish the flames, and a number of men were soon on the scene. By hard fighting the fire was extinguished, but not before it had done considerable damage. Mr. W. L. Clark had a large area of standing wheat burned, and other farmers' crops narrowly escaped.

—The reduced tariff of the Canadian Pacific Railway on grain, flour, oatmeal, millstuffs, flaxseed, oilcake, potatoes and hay in carloads, from stations on the C.P.R., M. & N. W. R. and G. N. W. Central, came into effect on Tuesday last. The rates give an average reduction of from three to five cents per 100 pounds, and apply to stations on the above railways in Manitoba, Assiniboia, Saskatchewan and Alberta, to Keewatin, Rat Portage, West Fort William, Fort William and Port Arthur. Twenty-two cents is the rate fixed per 100 pounds by the new tariff from Qu'Appelle, Indian Head, Sintaluta, Wolesey, Summerberry and Grenfell.

—Mr. William Brydon, druggist and stationer, of this town, died somewhat suddenly on Wednesday morning. He had not been out of the house the previous day, and he expired between three and four o'clock yesterday morning. Apoplexy is given as the cause of death. The deceased was about 57 years of age, and is well known throughout the country. He came here from Rat Portage some seven or eight years ago, and managed a drug and stationery store for Mr. James Weidman. He afterwards commenced business on his own account, and carried it on to within a few days ago. Mr. Brydon was a very popular citizen, and highly esteemed in all quarters, and the news of his death was received with many expressions of sorrow. He had held several responsible positions, and amongst other offices filled that of secretary to the Agricultural Society up to the time of his death. The funeral takes place at five o'clock this afternoon.

DR. PRICE'S Cream Baking Powder.

The only Pure Cream of Tartar Powder.—No Ammonia; No Alum.

Used in Millions of Homes—40 Years the Standard.

the District Superintendent Government Telegraph Service (Mr. H. Gisborne), will be sorry to learn of his death, which took place at Medicine Hat Hospital on the 22nd ult. He was taken ill about the 19th of July while employed repairing the line at Wood Mountain, and till the 1st of August was attended by Staff Sergeant McNamara, M.D., when he was removed to Moose Jaw and put under the care of Dr. Turnbull. On the 18th he was taken to Medicine Hat Hospital, and died there on the day above named. An abscess in the liver was the cause of death, although Johnston was suffering from a complication of diseases at the time. The deceased was 31 years of age, and had been in the employ of the Government for over two years. "Charlie" was a good servant, and well liked by the large number of people who knew him.

KENLIS.

Cutting is about done in this vicinity, and some of the farmers have started stacking.

Mr. Graham, from the east, a brother of Mr. David Graham, is on a visit here.

Mr. F. Garratt has returned to his school.

We understand the R. T. of T.'s have closed their council for a month on account of the pressure of work.

Our new minister is taking a very active part in the "royals" now, we understand. Glad to hear of it.

GRENFELL.

Mr. Frank Partridge left on Tuesday last for Golden, B.C., where he has secured a position in a large store.

Audrey Walters has given up painting and is back again in Messrs. Love & Tryon's store. By the way, we wonder how Audrey is getting on learning to play the harp.

Mr. Hutchison has moved his drug store to main street, one door north of Greenless' Blacksmith shop and is now building an addition to it. Mr. R. B. Taylor is still in charge of the drug store, and carries on his watch and jewelry business in connection. R. B. wears an expansive smile these days, not only on account of the prospects for increased business, but also on account of the arrival of a bouncing girl at his house about a week ago.

The September issue of Waghorn's Guide is out. It contains full particulars of the new time cards on the Northern Pacific Railway, the Manitoba and North Western, and the Prince Albert branch, besides embodying general changes in other tables of travel. The Post Office list is added to by the addition of new offices opened, their stage connection given, and all alterations in other services recorded. The sailings of Atlantic and Pacific steamships are given with the rates of passage, accommodation, etc. Also the lake service and through connections with eastern ports.

—Posters are out announcing the seventh annual exhibition of the Pheasant Forks Agricultural Society for Thursday, September 28th. There is a long list of prizes offered for competition by the society under the usual headings, and added to these are the special prizes, which altogether should attract the material for a good show.

The Post Office list is added to by the addition of new offices opened, their stage connection given, and all alterations in other services recorded. The sailings of Atlantic and Pacific steamships are given with the rates of passage, accommodation, etc. Also the lake service and through connections with eastern ports.

—A shooting party consisting of Dr. Hutchinson, W. Hutchinson, J. Bird, C. G. Chisholm, C. Woods and H. Toteck, put in the first few days of this month in shooting ducks, etc. They camped about 30 miles south of here, and succeeded in bagging quite a large number.

Rev. Mr. Tatum has moved into one of the houses built by Mr. Nalder this summer. We welcome Mr. and Mrs. Tatum to our town.

MEETING OF COUNCIL.

Minutes of an adjourned meeting of the Council of the Municipality of South Qu'Appelle, held in McLane's Hall, on Saturday evening, the 2nd inst.

Present: J. R. Bunn, Chairman; Councillors Caldwell, Smith, Whiting, Caswell and Fraser.

Minutes of last meeting were read, and on motion of Caldwell and Whiting, confirmed.

COMMUNICATIONS.

From the Municipality of Wolesey, requesting concurrence in compelling the C.P.R. to fence their road throughout the Municipalities.

From J. H. Boyce re cemetery.

From Wm. Brydon, Secretary of the Qu'Appelle Agricultural Society, requesting permission to hold the exhibition in the Immigration Building at one o'clock, after which the children and their friends were driven out to Rose Hill in several wagons provided by different members of the congregation. During the afternoon, several games and races were started, which together with swings and see-saws caused the time to pass away very pleasantly.

The Auditor's report was presented to the Council, and referred to the committee on Finance.

Mr. Caldwell recommended the building of a bridge across the Pile O'Bones Creek, in Tp. 16, R. 16.

Mr. Dickson, Advocate for W. B. Sheppard, Manager of the Co-operative Colonization Company, addressed the Council concerning the assessment of Sec. 1, Tp. 19, R. 14, to the above Company, and admitting that Sec. 13, Tp. 18, R. 14, is held by the Company in the same way, also concerning the taxable income of W. B. Sheppard, Esq.

Moved by A. Whiting, seconded by J. H. Fraser, that the clerk be authorized to inform the Municipality of Wolesey that this Council is anxious to co-operate with them

and Indian Head in compelling the Canadian Pacific Railway Company to fence their roadway throughout the municipalities, and that the Chairman of this Council be appointed a delegate to meet and confer with any parties that may be appointed by the aforesaid municipalities to make final arrangements. Carried.

Moved by S. H. Caswell, seconded by J. H. Fraser, that the clerk answer the communication of J. H. Boyce, and explain the peculiar state of the negotiations for the transfer of the cemetery to the municipality, and also to write W. B. Scarth requesting an early settlement of the matter. Carried.

The report from the Committee on Finance, Assessment and Safety, was read as follows:—

To the Chairman and members of the Council of the Municipality of South Qu'Appelle. Gentlemen,—We, your committee on Finance, Assessment and Safety, beg leave to submit the following report:

"We would recommend the report of the Auditor for the year 1892 be filed, and recorded in the minutes.

"We would recommend the amount deposited by the Bank of Ottawa with J. H. Caswell for payment of statute labor on the mill property, be paid to the treasurer to the credit of Improvement fund of Ward 5.

"We would recommend the payment to J. Doolittle the sum of \$35, balance of salary due him as collector for 1892, also to the same the sum of \$30 for salary as clerk of Council for the months of June, July and August, 1893.

"We would respectfully refer the matter of assessment of income of W. B. Sheppard to the Council.

"We would recommend the payment to members of Council six months salary and mileage. All of which is respectfully submitted.

Sd. JNO. CALDWELL.

Chairman.

Moved by J. Caldwell, seconded by J. Smith, that the report of the committee be received and adopted, and the recommendations therein contained be concurred in, and that the chairman and clerk issue cheques for the several amounts. Carried.

W. G. Vicar, Councillor for Ward 4, entered and took his seat.

The following is the auditor's report:—

"To the Chairman of the Council of the Municipality of South Qu'Appelle. Gentlemen,—I have the honor to report to you that the audit of the accounts of the Municipality for 1892 is now completed.

EXPENDITURE
By Schools \$ 1668.24
Milk Bonus Fund 368.95
General Fund 2013.92
5451.11
\$1695.53

ANALYSIS OF BALANCE
Licence Fund \$ 35.00
Milk Bonus Fund 529.25
General Fund 839.23
Statute Labor 302.05
\$1695.53

The Collector reports unpaid taxes amounting to \$345.74.

Your obedient servant,
ALBERT A. M. DALE."

Moved by J. Caldwell, seconded by S. H. Caswell, that, in conformity with Section 118 and Sub-section 4 of the Municipal Ordinance, 1888, and all amendments thereto, the Clerk be instructed to assess Section 1, Township 19, Range 14, and Section 13, Township 18, Range 14, for the year 1893 to the amount of \$260 each to the Canadian Co-operative Colonization Company. Carried unanimously.

Moved by J. Caldwell, seconded by W. Vicar, that the report of the expenditure of Ward 1 be received and filed. Carried.

Moved by J. Caldwell, seconded by J. Smith, that the lists of unpaid taxes as returned from the Sheriff be given to the Chairman of the Finance Committee, who is authorized to examine the same in conjunction with the Clerk and Treasurer, and report at the next meeting. Carried.

Moved by J. Caldwell, seconded by J. Smith, that the Council do not assess incomes for the year 1893. Carried.

Moved by J. H. Fraser, seconded by James Smith, that the proposal of the Minister of the Interior to lease to the municipality the Immigration Buildings (except the portion occupied by the North-West Mounted Police) for a term of years be accepted, and that a copy of the resolution be forwarded to the Department of the Interior. Carried.

Moved by J. Caldwell, seconded by W. Vicar, that the Immigration Buildings be put under the care of Mr. S. H. Caswell for the present for the purpose of sub-letting. Carried.

Moved by J. Caldwell, seconded by W. Vicar, that the Clerk advertise for applications for a collector at a salary of \$60 for the year 1893. Carried.

Moved by A. Whiting, seconded by J. H. Fraser, that the clerk be authorized to inform the Municipality of Wolesey that this Council is anxious to co-operate with them

will vacate the hall on the 5th of September. Carried.

A by-law prohibiting all animals running at large in the town was put through its various stages and passed, and numbered 187.

Moved by J. Smith, seconded by W. Vicar, that the Clerk be instructed to write Mr. G. S. Davidson, M.L.A., requesting him to advise the Council of the amount of Legislative Assembly grant for roads and bridges that is available for expenditure by the Council. Carried.

Council then adjourned.

BIRTH.

BORN.—On the 22nd ult., at Qu'Appelle, the wife of J. R. Bunn, of a daughter.

DEATHS.

JOHNSON.—On the 22nd ult., at Medicine Hat Hospital, Charles F. Johnston, aged 31 years.

BAYON.—On the 6th inst., at Qu'Appelle, William Bayon, aged 57 years.

LEGISLATIVE ASSEMBLY.

Continued from page 1.

The prime needs of the country are efficient primary schools and a thorough system of roads and bridges. Under our educational system a larger portion of the vote is given to the primary schools than in any other province. They receive about 50 per cent. of their expenditure as against 25 per cent. in Manitoba. The Territories have obtained a common inspectorate, a common examination and qualification for teachers, and almost completely a uniform system of text books—results obtained practically without friction. The estimates are designed to provide for two resident members of the executive and owing to a decrease in clerical assistance to the amount of \$2,170 there is a net decrease on the two votes of \$1,100.

The motion for committee carried nem. con. About half the items carried, and the House rose at 5.30 to sit again at 8 p.m.

Chairman.

Moved by J. Caldwell, seconded by J. Smith, that the report of the committee be received and adopted, and the recommendations therein contained be concurred in, and that the chairman and clerk issue cheques for the several amounts. Carried.
